CSAI - 1

Index -

1) Program to fnd the mean and the median of the numbers stored in an array.
2) Program to insert one element in an array and delete and element from an array
3) Program to search for a number in an array.
4) Program to sort an array.
5) Program to merge two sorted array
6) Program to store the marks obtained by 10 students in 5 courses in a two-dimensional array.
7) Program to implement a linked list.
8) Program to insert a node in a linked list and delete a node from a linked list.
9)Program to print the elements of a linked list in reverse order without disturbing the linked list.
10) Program to reverse a linked list.
11) Program to add two polynomials using linked list.
12) Program to implement a doubly linked list
13) Program to implement a stack using an array.
14) Program to implement a stack using a linked list.
15) Program to implement a queue using an array.
16) Program to implement a queue using a linked list
17) Program to implement a circular queue using a linked list.
18) Program to implement a priority queue using a linked list
19) Program to implement a double-ended queue using a linked list.
20) Program to construct a binary tree and display its preorder, inorder and postorder traversals
21) Program to construct a binary search tree
22) Program to construct a graph
23) Program to calculate the distance between two vertices in a graph
24)Program to calculate the distance between two vertices in a graph
25) Program to construct a minimal spanning tree of a graph.
